TODAY'S SESSION

DIAGEO

Purpose:

- To provide an overview of the Talent Review process for HRBPs

Outcomes:

- A shared understanding of:
  - What we do and why we do it
  - Each stage of the process
  - How the outcomes of the talent review are used globally

Structure:

- One hour presentation including step through the process with questions at end

OUR TALENT APPROACH – WHY WE DO WHAT WE DO

DIAGEO

- We believe that growing our business goes hand in hand with growing our people
  - Achieving the Performance Ambition and our Talent Must Do demands that across Diageo we build talent in greater volume and with greater consistency that we ever have before.

- We are guided by our talent principles
  - Bringing these to life will make Diageo a special place to work for employees globally, liberating people to do their best work.
  - Based on a fundamentally positive view of what human beings are capable of – a reflection of our purpose to celebrate life every day, everywhere.
  - We believe everyone has a unique set of talents – we should help them understand and make the most of them.
  - We believe in leveraging strengths and that everyone deserves transparent feedback focussed on their growth and what's possible in their future.

- Maximising the strength of our talent base starts with knowing our people – a key enabler of this is a consistent talent review process

TALENT PRINCIPLES

1. Everyone has a unique set of talents
2. Everyone has potential and this can change over time
3. Every employee receives honest feedback for growth
4. We hire first for Diageo, then for the function and role
5. Business performance requires every individual to grow
6. Individual ownership drives professional progress
7. We invest disproportionately where we see most business performance upside
8. Performance is critical to the next move
9. Diverse perspectives drive increased growth
10. Talent development is the job of leaders

WHAT WE DO - A CONSISTENT TALENT APPROACH ACROSS DIAGEO

DIAGEO

- In F15 we introduced, globally, a talent management approach based on transparent principles, simple processes, easy to use tools and supported by our global technology platform Workday

- Our commitment is to execute a talent review locally for each employee once a year. There is flexibility for markets on when you choose to do this. Could review the entire business at one fixed point or you could spread the reviews for different levels or functions across the year.

- A talent review is simply a meeting where the employee's manager and their peers share feedback and create an aligned "Diageo view" on an individual's
  - Key strengths
  - Development breakthroughs
  - Potential for what in the future (in the form of membership of specific succession pools)

- We will provide transparent feedback to every individual – supporting their personal and career growth

- Talent Reviews are **not** a calibration of employees' current year performance. Rather, they are an assessment of capability and potential where year-on-year performance will be an important input.

THE BENEFITS WE ARE SEEKING

DIAGEO

Employees

- Better development and career planning – enabled by transparent calibrated feedback.
- Higher engagement as “black box” element of talent management is dispelled
- Feedback is constructive – it is an expression of what someone can do rather than what they can’t.

HR BPs

- Strong robust data on the strength of the talent base to feed MYTP
- Able to target talent interventions both at the individual, team and organisation level

Line Managers

- More equipped as talent builders - better able to support career development for their teams, more confident in providing robust validated feedback.
- Enables individual career conversations to be more easily owned and acted upon.

Diageo

- A broad understanding of the talent base enabling us proactively and strategically build our talent pipeline.
- An inclusive approach designed to maximise the performance and potential of all our people through an inclusive approach.
- An approach consistent with our values which enhances our Employer Brand

FOCUS AREAS

DIAGEO

- Practice makes perfect - build on the platform we have created
  - Embed rhythm & build rigour through brilliant execution
  - Achieve greater coverage of the total population
  - Meet our commitment for every employee to get feedback from their manager

- Better leverage data and technology
  - Increase the quality and consistency of the talent card data in Workday
  - Encourage line managers to use WD as a source of talent information
  - Improve our ability to derive insight from succession pool data

- Build our muscle in assessing talent
  - Greater skill in evaluating ‘potential for what’
  - More differentiation in our talent judgements

THE PROCESS AND YOUR ROLE AS AN HRBP

DIAGEO

- Your role is to orchestrate the overall process, from securing Exec sponsorship through to leveraging the data gained for great talent insights.

Communication and planning	Line Manager Training and Prework	Check data and gather insights	Lead Talent Review sessions	Update Workday	Review total talent picture	Ensure employee feedback and follow through
Plan when in year you will complete Talent Reviews. Brief leaders, line managers and employees. Complete the logistics.	Ensure every line manager feels confident and well prepared to gather insight on their people and represent them in talent reviews.	Ensure talent data in WD is current and complete. Establish start point – what gas exist in the talent base.	Support LMs reaching strong people insights. Hold the tension to drive a breakthrough for all of our employees and truly live our talent principles	Put succession pool data into the system	Use what you have found to improve your MYTP so have the people and capabilities we need to deliver the Performance Ambition	Set LMs up to have honest conversations that inspire their teams to develop and their build careers.. and update their dev plans.

COMMUNICATION AND PLANNING

DIAGEO

- Brief leaders to secure sponsorship and role modelling
  - Build belief in the benefit of to business performance, engagement, driving the Talent Must Do
  - Equip them to understand and apply the talent principles
  - Ensure they understand the time required from their teams, their own roles as line managers and functional leaders

- Plan and book the reviews
  - Review similar groups of employees at the same level together and always invite the line manager of each employee.
  - Review reasonable numbers together to allow calibration with several managers present (5 – 25 employees, min of 3 managers).
  - Include managers that will know the employees being discussed or those who need to know them.
  - Allow a minimum of 10 mins per employee with set up and wrap up time.
  - Map the total organisation to make sure groups are not missed

- Communicate to line managers and employees
  - Outline the process and send prework to managers
  - Set and expectation of feedback - let employees know when they will be reviewed

- Book line manager training sessions

LINE MANAGER PRE-WORK AND TRAINING

DIAGEO

- Prior to the Talent Review session Line Managers should
  - Review the talent cards of their direct reports in Workday (instructions in appendix)
  - Have a conversation with each of their direct reports to update their view of their key strengths, breakthrough development areas, aspirations and mobility
  - Complete a talent assessment for each direct report
  - Consider the succession pools they would like their direct reports included in and record this in the succession pool capture tool. This should additions to pools, readiness changes and removals from pools.

- Line Manager training focuses on
  - Engaging line managers to lead with the talent principles (mindset is critical)
  - Clarifying the process, the tools and their role
  - Setting the expectation of transparency… feedback is a duty not an option
  - Giving them confidence in their ability and reassurance of support
  - Training materials are available for this session

EXAMPLE OF A TALENT CARD

TALENT ASSESSMENT TOOLS

DIAGEO

- Most functions will continue to use the core assessment tool
  - Designed for each function to help line managers get deeper insights into their direct reports' strengths and area for breakthrough
  - Looks at functional and leadership capabilities as well as indication of success in a bigger role
  - Designed to get a holistic overview rather than an in depth assessment
  - It is designed for all employees however the functional capability section has greater applicability for those employees L4 and above

- Over time our updated iDevelop assessment tools will replace the core tool
  - Housed in Diageo Academy
  - Looks at functional and leadership capability
  - Functional capability will be assessed against the expected level for the employees role (driven by job family in WD)
  - Managers should leverage iDevelop wherever it is available

WHAT DO WE MEAN BY "SUCCESSION POOLS"?

DIAGEO

A "pool" of employees who we believe could do a specific type of role in the future.
For Example L3 Sales Leadership, L4 Innovation

We express potential by matching people into succession pools

- Putting an individual into a succession pool means we can see them doing that kind of role at some point in the future
- We apply a readiness rating - RN– 1, R2, R3-4 or R5+
- It includes people who need this kind of experience to grow and strengthen our talent pipeline

This approach allows us to:

- Work out whether we will have the talent we need for specific types of roles in the future
- Better plan all the career steps an employee needs to take to fulfill their potential
- Target our hiring to fill future gaps as well as current gaps

Succession pools provide the start point for succession planning

- We start succession planning for a specific role by reviewing the full list of people that we believe have the potential to do that type of role in the future
- Starting with a pool means we avoid the usual suspects syndrome – it is more inclusive

CHECK DATA AND GATHER INSIGHTS

DIAGEO

- Ensure accuracy of key Talent data in WD
  - Are the correct critical positions tagged *(report : Talent Pipeline – Succession Plan)*
  - Do critical positions have succession plans enabled ? *(report : Talent Pipeline – Succession Plan)*
  - What is the quality of the Employee entered talent data in WD? *(report : Talent Summary for Organisation)*
  - A Workday task will be sent to all employees on 01 December to review and update their experience, aspirations, mobility and languages

- Review talent data V MYTP priorities
  - Identify type of talent needed for the business to deliver
  - Review V existing succession pool and plan information
    - How strong and diverse is the pipeline?
    - Are we growing the talent we need?
  - Identify gaps and themes to bring into the talent review conversation *(Reports : Succession Plans Readiness Analysis / Succession Pools Readiness Analysis)*

LEADING TALENT REVIEW SESSIONS

DIAGEO

- The questions we are seeking to answer for each employee
  - What are the stand out strengths and development themes of this person?
  - What could this person do to most increase their performance footprint?
  - What do we see as possible for this person in the future (what succession pools should they be included in with what readiness)?
  - What development actions are most critical for them to perform and achieve their potential?
  - What feedback do we want to give them?

- Use workday live in the session by displaying each employee's talent card.

- Capture succession pools changes live in Workday or use the succession pool capture tool.

- Live the talent principles and hold the tension to drive breakthroughs

- Drive for insight, rigour in talent judgements, clarity of feedback - Facilitating talent review sessions provide a deep dive in this area

UPDATING WORKDAY POST A SESSION

DIAGEO

- If not updated live in the session then all succession pool data should be updated within 7 days of the review directly in WD. There is no global submission or data upload.

- Business partners have access to pools up to L2 for the functions they support. This includes full global visibility to the membership of those pools.

- Employee data from last year needs to be updated as part of this process
  - Removing from pools they are no longer supported for
  - Updating readiness

- This can be done during the talent review session but needs to be in a space not visible to the room to avoid confidential pool data being visible to all.

REVIEWING THE TOTAL TALENT PICTURE

DIAGEO

- Data from talent reviews offer invaluable insights in building/ strengthening MYTPs
- Review the total health of the pipeline by succession pool membership.
  - Do we have the types of talent and capability we need to succeed now and in the future?
  - What percentage of employees have the potential to progress 1 level/ 2 levels? Is this enough to provide the leaders of the future?
- Succession plans for critical roles are built from the relevant succession pools.
  - This enables the broadest sweep of the total employee base identifying a more diverse set of succession candidates.

CONNECTION TO GLOBAL TALENT PROGRAMMES/R200

DIAGEO

- All FLP and Global Graduate Programe participants should be reviewed in the talent review alongside peers in the market in which they are working.
  - Post talent reviews the global team will review the total picture for FLP and Global Graduate Programme participants

- ALP/FLP nominations are informed directly by succession pool and mobility data on WD
  - L5 and L4 in SL and L2 succession pools will be the start point
  - Qualified by mobility – nominees must be mobile
  - To include people from your population in this first stage of nomination ensure their membership to the appropriate succession pools

- The global talent team will lead the talent review for R200 incumbents with the relevant members of the Diageo Exec and line managers
  - Specific communication and briefing will be provided to HRDs
  - In February the global team will pull succession information for R200 roles as input to discussions on Exec succession in March

EMPLOYEE FEEDBACK AND FOLLOW THROUGH

DIAGEO

- The performance impact of this process rests on the strength of the feedback.
- It’s only a good conversation till someone has learned something about themselves that helps them grow and perform
- Our commitment is to provide transparent feedback to every employee
  - A calibrated view on strengths and development areas
  - Where we would encourage them to focus their growth
  - What succession pools they are included in and what this means.
- The process should be visible to employees and the expectation set of receiving feedback within 2 weeks of the talent review meeting where they are discussed
- Training materials for line managers in giving feedback is available

To **Workday - TALENT user group**

tip of the day : FIND WORKER

HRD's do wonder what the pipeline of talent is from Commerical roles, who are mobile to your Market, with the right language capabilities, at a specific level of the organisation ?

This is at your fingertips -
1. simply type 'find workers' into the search box to the top left of your screen in Workday, and select the most relevant criteria for your search from the pick list down the left

2. you will see the basic information for each employee globally matching your criteria

3. pick up the phone to your HR collegue and start discussing possible career opportunities for the talent you have spotted
