H	Hello, Calc!		Calc is the spreadsheet program you've always needed. N	

ewcomers find it intuitive and easy to learn. Professional data miners and number crunchers will appre

ciate the comprehensive range of advanced functions. Advanced DataPilot technology makes it easy t

ɔ pull-in raw data from corporate databases, and then cross-tabulate, summarise, and convert it into me

eaningful information. Natural language formulas let you create formulas using words (for example: "sa

ıles - costs"). The Intelligent Sum button inserts a sum function or a subtotal automatically, depending

on the context. Wizards can guide you through choosing and using a comprehensive range of advance

ed spreadsheet functions. Or you can download templates from the LibreOffice template repository, for

ready-made spreadsheet solutions. Styles and direct formatting makes it easy to apply flexible cell forr

natting options, including freely-rotating contents, templates, backgrounds, borders and much more. Be

ecome a spreadsheet expert, using templates with built
