Instructions

1. See README for how to gather ticker growth data; clear unwanted ticker,
2. Click "+Insert Row" button when row 7 has green fill in the date cells; add
3. You shouldn't need to use the "-Delete Row" button; it is only provided in c

VFINX	Growth	VTSMX	Growth	VGTSX	Growth	VTWIX
31/01/2026	$2,284,097.18	31/01/2026	$301,945.45	31/01/2026	$52,841.83	31/01/2026

, growth pairs (including labels in row 6); add new ticker, growth pairs as desired - maintain a contiguous block of
end-of-month date and enter (or copy/paste-values from source) growth data for each ticker
case you inadvertently insert too many rows

Growth	VBMFX	Growth	VIPSX	Growth	VASGX	Growth
$43,080.57	31/01/2026	$68,810.72	31/01/2026	$30,568.61	31/01/2026	$131,342.23

: data, use ticker ID and "Growth" for labels in row 6
